A LOSS BY FLAMES.

Many Buildings Destroyed and Two Lives Lost.

Chillicothe, Ohio, Sept. 23.—

The village of Bainbridge was the scene of one of the most disastrous conflagrations this afternoon that ever occurred in this country. An entire square, containing most of the prominent business houses, several handsome residences and the Methodist church, was entirely destroyed and two prominent business men lost their lives in an explosion which occurred in a drug store.

The fire was started in a barn by two little boys who were playing with lighted matches. The flames spread rapidly and communicated with the main buildings. Owing to the limited means at hand for fighting the fire it passed all bounds and became uncontrollable. In the midst of the excitement a terrible explosion occurred in the drug store of W. P. Beardsley. Mr. Beardsley while endeavoring to save some of his property lost his life in the ruins. His brother-in-law, Thomas Higgins, who went to his rescue, was unable to get out and was burned to death, while several others were more or less injured, but none fatally.

There was a stiff breeze blowing, which fanned the flames to greater fury, and getting a fresh start from the burning oils and chemicals in the wrecked drug store, the fire leaped from house to house until it was evident that the entire town was doomed. A message was sent to Waverly and to this city asking for aid and both fire departments promptly responded. The special trains with the engines did not arrive until nearly three hours after the first alarm was given. The best that could be done was to prevent the fire from communicating to the other squares and the men soon had the flames under control.

The excitement was awful. Men, women and children were reduced to the verge of despair as they saw their possessions feeding the greedy flames and tonight scores of people are homeless.

The estimated loss is \$50,000.

GOLD FROM FRANCE.

New York, Sept. 28.—La Touraine of the French steamship line, which sails from Havre Saturday, will bring to this port \$1,000,000 in gold.

In all their wars the British have won the splendid average of 82 per cent of their battles.

CUBAN LEAGUE.

President Allen Declares the Hour Of Victory Is Come

New York, Sept. 23.—

President Ethan Allen of the Cuban League of the United States today issued the following address to the members of the league: "A year of patriotic work is about to end in grandest results. Last spring nearly every Governor of this Republic at our request by the Legislature of his State spoke for Cuban independence.

"Many hundreds of thousands of citizens responding to the appeal of this league have made it manifest that public opinion is on the side of the Cuban insurgents. Now the hour of emancipation for Cuba is at hand. The commanding voice of the nation has at last reached the executive. Though the delay has been much too long, still the retribution at hand will excuse past delinquency. Our minister in Spain with a patriotic president behind him will do that which shall end the murder, plunder and tyranny in Cuba, allowing its entry as a sovereign State. The nation is ready with guns if necessary. Every member of this league should be alert to uphold the President in such a policy. Let all say to him: 'All divisions end at the water's edge.'"

FEVER HOSPITAL

BURNED.

New Orleans, Sept. 24.—

(Bulletin, 2 a. m.)—The Bourgeois school building, which it was proposed to use as a fever hospital and which a mob threatened to burn down, was destroyed by fire at 1 o'clock this morning, although it was guarded by police. It was formerly a fine residence, occupying a square of ground on Canal street.

DECREASE AGAINST

MONEY.

New York, Sept. 23.—Dr. Ce-

ballos, an English speaking Mexican, who arrived here from Sancho, San Domingo, to day, says President Lillo of San Domingo issued a decree forbidding the admittance of American and Mexican money into San Domingo and prescribing its use there. The decree, which takes effect October 9, is aimed at the commercial classes, who have been preferring insistently American and Mexican money to San Domingo coin, which is depreciated, the San Domingo dollar being worth only 30 to 35 cents. About \$4,000,000 or \$5,000,000 in American and Mexican money has been employed annually in business in San Domingo.

FATE OF A BARK.

A Story of Shipwreck—Part of the Crew Finally Rescued.

San Francisco, Cal., Sept. 23.

—The story of the fate of the missing Norwegian bark Seladon was confirmed to-day upon the arrival of the steamship Moana from Sydney. The Seladon left Newcastle, N. S. W., on July 13, 1896, for Honolulu. On the night of August 7 the vessel struck Starbuck Island while running at a speed of seven knots and fifteen minutes later four feet of water was reported in the hold and two boats were launched with crews of eight men each. After laying by the vessel until daylight, Captain Jegar decided to make for Mado island, which he reckoned to be two days' sail. Having nothing but a chart and compass, however, the boats missed the island and attempted to make Christmas island, but missed that also. They then ran before the wind, and for seventeen days proceeded without a mishap. Upon August 18 the gig capsized and all its occupants except Chief Officer Kris Neilson, who was drowned, were picked up by the other boat. Captain Jegar died of exhaustion on August 18 and was buried. On August 30 the fourteen men divided their last tin of meat, five pounds, which lasted three days. Meantime they were dependent upon occasional showers of rain for their water supply. For six more days they sailed on, too weak to move, and when all hope had been given up their boat ran on the reef of Sophia islands and cast them ashore. Fortunately they were picked up by natives, who treated them with the utmost kindness. But the ship's carpenter, T. Olsen, died from the result of his exposure a few days later. After subsisting upon coconuts, turtle and seabirds for ten months and ten days the steamer Clyde, bound for Auckland, was sighted and Captain Callahan, took the shipwrecked men to Fiji, where they were transferred to the bark Ellen, which conveyed them to Sydney.

A SENSATION AT MADRID

On Account of the Attitude of the United States.

Paris, September 23.—A dispatch to the Temps from Madrid says: The attitude of the United States has caused a great sensation at Madrid because opinion has been lured on by the pessimistic communication of the Spanish minister at Washington upon the character and duration of the correct attitude of the United States, and that, too, despite several warnings from Mr. Olney and Mr. Cleveland's message. The official bulletins of Captain General Weyler have also received too much

confidence, when the United States government was every month receiving from its consuls and special envoys totally different news. The general impression at San Sebastian and Madrid is that the Spanish government will try to drag negotiations along unless it rejects purely and simply the good offices of the United States on the ground of public opinion, and upon the further ground that the opposition would not permit it to tolerate foreign intervention, even though amicable.

SELF STYLED AMERICANS.

Cubans Who Are Trying to Recover Indemnity from Spain.

Madrid, Sept. 23.—Senor Valera, formerly Spanish minister at Washington, publishes an article on the Cuban situation, in the course of which he says that certain advantages were accorded to Americans in 1877 as the result of the declarations of the Spanish foreign minister, but as these were not ratified by the chamber, the government, he declared, can annul them. Senor Valera adds: "The majority of self-styled Americans who claim indemnity are not, according to American law, legitimate citizens, but Cubans who employ this method to obtain indemnities. It is believed the American Nation will end by doing justice to Spain."

THE KENTUCKY PLAN.

A Kentucky man took down his shot-gun and perforated the man who had been appointed to succeed him in office. This is more expeditious than the injunction process, but not so safe.—Washington Post.
